EPOS-EFORT Instructional Course

Vienna, Austria: 09-11 October 2013

Paediatrics: Basic Course II

- Disorders of the upper limb
- Disorders of the knee
- Musculoskeletal infections
- Spine

Welcome

Bjarne
Møller-Madsen

Franz
Grill

Manuel
Cassiano Neves

Dear Colleagues,

It is a pleasure to welcome you to the second EPOS-EFORT IC which constitutes an integrated part of "EPOS BAT Educational Programme". The course aims at General Orthopaedic Surgeons, particularly young ones, who want to improve their knowledge in Children's Orthopaedics. The scientific content should contribute to knowledge-sharing and a further understanding of Children's Orthopaedics.

EPOS Educational Committee has set up the "EPOS BAT Educational Programme". The programme meets the demands required by the European Board of Orthopaedics and Traumatology (EBOT). The acronym **BAT** arises from **B**asic-, **A**dvanced- and **T**raumatology Courses. These courses together constitute the "EPOS BAT Educational Programme" and aim to facilitate a problem-solving approach in the diagnosis and management of orthopaedic conditions in children informed by relevant research evidence.

A module of two Basic Courses in combination with one in Traumatology covers the core curriculum in Children's Orthopaedics. Advanced Courses are primarily designed for Children's Orthopaedic Surgeons who manage children's orthopaedic conditions in a highly specialized setting. Course teaching Faculties are composed of highly internationally recognized specialists in Children's Orthopaedics from all over Europe. This second Basic Course includes disorders of the upper limb, disorders of the knee and musculoskeletal infections combined with workshops, panel discussions and case presentations by participants.

Innovation in hardware and treatment procedures for children often has its basis in clinical work. That is why we need close collaboration with the industry in this field.

We invite all orthopaedic surgeons to come to Vienna in October 2013 and join us at the Orthopädisches Spital Speising at the heart of Europe. We will do our utmost to meet and exceed your expectations.

Yours,

Bjarne Møller-Madsen

Core Curriculum in Childrens Orthopaedics

EPOS Educational Committee has set up the "EPOS BAT Educational Programme". The programme meets the demands required by the European Board of Orthopaedics and Traumatology (EBOT). The acronym **BAT** arises from **B**asic-, **A**dvanced- and **T**raumatology Courses. These courses together constitute the "BAT Educational Programme" and aim to facilitate a problem-solving approach in the diagnosis and management of orthopaedic conditions in children informed by relevant research evidence.

BAT – Basic, Advanced and Traumatology

Educational Programme in Childrens Orthopaedics

A module of two Basic Courses in combination with one Traumatology Course covers the core curriculum in Children's Orthopaedics. Advanced Courses are primarily designed for Children's Orthopaedic Surgeons who manage children's orthopaedic conditions in a highly specialised setting. Course teaching Faculties are composed of highly internationally recognised specialists in Children's Orthopaedics from all over Europe.

Education in the focus!

The EFORT FONDATION has supported 10 scholarships for this Core Curriculum in Paediatrics.

Programme

Wednesday 09 October

Schedule	Topic	Faculty
7:30	Registration	
8:00	Abut the "EPOS BAT Educational Programme" and EFORT	B. Møller-Madsen M. Cassiano Neves

Disorder of the upper limb

Development and growth

Moderator: Franz Grill

8:15	Embryology and growth	M. Ramachandran
8:50	Clinical assesment	S. Böhm
9:00	Rehabilitation programme	S. Böhm
9:40	Discussion	

Congenital deformities

Moderator: Franz Grill

9:45	Epidemiology	S. Böhm
10:00	Management considerations incl. timing	W. Girsch
10:15	Discussion	

10:25 Coffee break

Malformation of the hand

Moderator: Bjarne Møller-Madsen

10:45	Poly- and Syndactyli	M. Ramachandran
11:15	Discussion	

Malformation of the forearm

Moderator: Bjarne Møller-Madsen

11:25	Longitudinal and transverse malformations	D. Eastwood
11:45	Soft-tissue deformities	W. Girsch
12:05	Discussion	

Brachial plexus injuries

Moderator: Deborah Eastwood

12:15	Brachial plexus injuries	W. Girsch
12:55	Discussion	

Programme

Wednesday 09 October

Schedule	Topic	Faculty
13:00	Lunch / Industry award	
14:00	Workshops – Rotation system	
15:30	Coffee break	

Disorders of the knee

Development and growth

Moderator: Pierre Lascombes

16:00	Embryology and growth	M. Ramachandran
16:10	Clinical assessment	H. Ömeroglu

Before walking age

Moderator: Pierre Lascombes

16:30	Congenital dislocation of the patella	T. Wirth
16:45	Congenital knee flexion contracture	D. Eastwood
17:00	Congenital hyperextension of the knee	F. Grill
17:20	Discussion	
17:30	End of the day	

Thursday 10 October

After walking age

Moderator: Tomas Epeldegui

8:30	Idiopathic anterior knee pain	B. Møller-Madsen
8:45	Apophysitis	H. Ömeroglu
9:00	Osteochondritis dissecans	P. Lascombes
9:20	Discoid meniscus, popliteal cyst	T. Wirth
9:50	Patellofemoral instability	M. Cassiano Neves
10:00	Athletic knee - plica syndrome, pes anserinus syndrome	H. Ömeroglu
10:10	Discussion	

Programme

Thursday 10 October

Schedule	Topic	Faculty
----------	-------	---------

Musculoskeletal infections

Infection of the hand and upper limb

Moderator: Rüdiger Krauspe

10:20	Epidemiology	D. Eastwood
10:30	Infection of the hand and upper limb	E. Ippolito
11:10	Discussion	
11:30	Lunch / Group photo	
12:30	Workshops – Rotation system	
14:00	Coffee break	

Infection of hip and bone

Moderator: Muharrem Yazici

14:30	Transient synovitis of the hip and septic arthritis	R. Krauspe
15:00	Osteomyelitis - acute and chronic	T. Epeldegui
15:30	Sequelae	T. Epeldegui
16:00	Discussion	

Infection of spine and tumours

Moderator: Stephanie Böhm

16:10	Spondylitis Discitis	R. Krauspe
16:20	Tumours	M. Yazici
16:30	Discussion	

Case presentations by participants

Moderator: Muharrem Yazici

16:45	Case presentations	Participants
17:30	End of the day	
19:00	Course Dinner	

Programme

Friday 11 October

Schedule	Topic	Faculty
The growing spine		
Moderator: Bjarne Møller-Madsen		
8:00	Development of the normal spine. Growth assesment	P. Lascombes
8:20	Clinical examination. Imaging	M. Yazici
8:30	Early onset scoliosis	P. Lascombes
8:45	Discussion	
9:00	Workshops – Rotation system	
10:30	Coffee break	
Idiopathic scoliosis		
Moderator: Thomas Wirth		
10:45	Epidemiology. Classification	R. Krauspe
11:00	Non-operative treatment	M. Yazici
11:20	Operative treatment	R. Krauspe
11:50	Discussion	
12:00	Lunch / Course diplomas	
Scheuermann's kyphosis		
Moderator: Hakan Ömeroglu		
13:00	Clinical assesment. Imaging	R. Krauspe
13:10	Management	M. Yazici
13:30	Discussion	
Spondylolisthesis		
Moderator: Hakan Ömeroglu		
13:40	Clinical assesment. Imaging	M. Yazici
14:00	Management	M. Yazici
14:30	Discussion	
15:00	Closing remarks	B. Møller-Madsen
